

## ETA Installation Guide

### Marzocchi XC600

- 1/ Remove the outer cable ferrule and using gear cable cutters shorten the outer cable by 55mm.
- 2/ Reinstall outer cable ferrule and fit the cable to the cable guide.
- 3/ Using a 2.5mm hex key remove the centre fixing screw and using a 2mm hex key loosen both grub screws.
- 4/ Remove ETA cable rotor mechanism, making sure you note its resting position.
- 5/ Tighten the 2mm grub screws to lock the cable in the cable rotor.
- 6/ Rotate the cable rotor making sure to wrap the cable in the rotor's cable groove.
- 7/ Install the rotor in the resting position.
- 8/ Using a 2.5mm hex key reinstall centre fixing screw.
- 9/ Check the function of the lever and adjust any cable play using the lock nut adjuster.
